# Magic Submitter

By now, you've heard the buzz about article marketing, video submitting, social bookmarking, social networking, and blogging.

After all, Facebook alone has over 500 million members. Twitter is growing at over 1100% a year. YouTube has over 50% of all web traffic. Even "unknown" social networking sites has huge growth and millions of members, like many of these sites:

As thousands of Internet Marketers already know, backlinks from popular sites, videos, RSS Feeds and articles offer the surest route to high rankings in Google, tons of free traffic and lots of targeted customers.

So if you've learned to write articles, blog posts, make videos, (or you're currently learning how), then congratulations.

Writing effective articles and making viral videos is the first step. But you also need to know the "Traffic Side," such as:

And once you combine these two powerful steps (knowing how to produce great content AND how to get those awesome posts and videos on the right sites), then there's not much that can stop you from becoming a HUGE success in your market.

With Magic Submitter, you can save hours of tedious drudgery posting articles to article directories, bookmarking them, uploading videos and updating RSS feeds.

Just this morning hit number 1, if this carries on with the rest of the site then I might retire early!

After months of trying to figure out the keyword game, Magic Sumbitter magically made it all clear to us.

We are now raPIDLY climbing to the top of our keywords everyday thanks to Magic Submitter! This is the only software we will use and promote!

Last week I recieved an email for the new SEnukeX. Didnt think twice about using it. Like they say, if its not broke why try to fix it. Here at Tao Wireless, we choose Magic Submitter above...
